MIKE TIGER

SHOWTIME

Mike Tiger, a.k.a. Michel le Tigre, is a real showman! He loves the stage, the lights, the crowd and mostly himself ! **To please in audience, his own mirror ball will shine : Diabolo, synthesizer, hoola hoop, rhythm and dance. He will get it all out, on his own.** *An energy filled show, in which the audience witnesses the ups and downs of this failed high flyer looking for recognition.*

THE AUTHOR'S NOTE

Faithful to his clown trade, Philipp V. proposes a burlesque and touching show that utilises humour and self mockery to move the crowd. To try and define what motivates the writer, the clown talks of, deep lightness of being, to express deep subjects with a light touch.

It's about transforming the cabaret, art form' through burlesque, humouristic and physical play to talk about solitude, egocentrism and the need to be loved.

Mike Tiger is a showman who only desires to be loved, adulated, shine. On stage, he thinks he can create a cabaret all on his own and pretends he can be the only character of all the tricks. Dancing, juggling, he gives it all out, and he sweats, slides, loses himself. As the show advances, accidents and technical issues start taking their toll. The crowd witnesses his failures, his loneliness and his hopelessness. Slowly, this charming and pretentious character becomes touching, simple and human.

In our, rat race society, this show celebrates human weakness.
